Forecast For London & Southeast England
Issued by Met Office Exeter
at 1600 on Tuesday 23 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Fog patches Tuesday evening. Generally cloudy on Wednesday.

This Evening and Tonight:
Fog patches are likely to form this evening and overnight, but these likely to be more isolated towards the north and west, where cloudier. A patchy frost also likely where skies remain cloud free. Minimum temperature -1 deg C (30 deg F).

Wednesday:
Early fog patches lifting. Becoming generally cloudy with the odd spot of rain possible. However, the far southeast may stay mainly dry and bright for much of the day. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:
Thursday, overnight rain clearing then dry and bright. Chilly. Into Friday conditions turning very unsettled with rain, then showers and strong winds. These conditions continue into Saturday, and feeling cold.
